

CHUMBE ISLAND CORAL PARK

YOUR CHUMBE PACKAGE INCLUDES

As a not-for-profit enterprise, Chumbe is an internationally acclaimed conservation area, boasting a fully protected coral reef sanctuary and forest reserve. The eco-lodge, nestled between the forest and the beach area, funds all conservation management and supports Chumbe's extensive environmental education programmes with local schools and communities in Zanzibar. Operational for more than 25 years, Chumbe is the world's first financially self-sustaining marine conservation area.

ECO-BUNGALOW ACCOMMODATION

Our seven bungalows can accommodate single, double, twin and triple bed facilities to meet your needs. Designed using cutting edge eco architecture and made by local artisans using natural materials, these bungalows offer a Robinson Crusoe experience of self sufficiency. Each has its own rainwater collection and filtration systems, solar energy panels and innovative waste management systems, to ensure your stay has zero impact on the environment.

Six of our bungalows have an open living room on the ground floor, with a wooden staircase leading to an upper bedroom platform offering beautiful views to the ocean. For guests with mobility challenges, one bungalow has all facilities at the ground level.
